15. Multidisciplinary / interdisciplinary

This college offers Interdisciplinary art activities which refers to artwork that draws on more than one field or discipline of study, such as visual art, music, literature, theater, dance, and technology. This type of art often involves collaboration between artists from different fields who combine their expertise and creativity to create a unique and innovative work of art.

Individuals are inspired to work in many forms, including installations, performances, multimedia projects, and experimental films. It often challenges traditional notions of art and blurs the boundaries between different disciplines. By combining different forms of expression, interdisciplinary art can create a more immersive and engaging experience for the audience.

Examples of interdisciplinary art include performance art pieces that incorporate music, dance, and spoken word; multimedia installations that combine visual art, sound, and video; and theatrical productions that incorporate elements of dance and visual art can be witnessed during the Annual Exhibition every year. The possibilities are endless when it comes to interdisciplinary art, and it continues to push the boundaries of what is possible in the world of art and creativity.

16. Academic bank of credits (ABC):

18. Appropriate integration of Indian Knowledge system (teaching in Indian Language, culture, using online course)

This college is affiliated under University of Calcutta and follows the rules and regulations as prescribed by the authority concerned.

19.Focus on Outcome based education (OBE):Focus on Outcome based education (OBE):

Outcome-based art education (OBAE) is an approach to teaching art that emphasizes the attainment of specific learning outcomes. The focus is on what the student should be able to do or understand at the end of the learning experience. Clarity of Learning Outcomes is measured by internal assessment Test held at regular intervals in all the disciplines.

Classes are designed which create interests among individual students and provides opportunities for them to take ownership of their learning. Interdisciplinary learning by incorporating concepts and skills from other subjects, such as science, history, and technology are initiated in the theoretical classes to provide quality education.

GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 - Institutional Vision and Leadership

6.1.1 - The governance of the institution is reflective of and in tune with the vision and mission of the institution

An exposition of well-perceived visionary concept conceived and devised unerringly and finally executed by our esteemed authorities of GCAC, Cal, since the very inception of the idea of taking resolution for the purpose of introducing the UG and PG course of studies in Visual Art successively, with an objective of promotion of genuine and true art in the contemporary exposure; further linked with the international wave of modernism (inclined to foster the posterity ideally for shaping the cultural trend of this country) culminated in a notion of constituent principles, signified in a comprehensive, studio based-and integral curriculum (adorned with an inter-disciplinary approach and method of Psychoanalysis); which has been recognized universally as an exemplary. Thus, the envisioning idea of this discernible, self-contained academic order is pursuing an adherence and constant patronage towards the potent and sensitive artists which reflects the following unique characteristic of envisagement: Perfect exploitation of individual artistic genius and

opulence of original expression. Emphasis on the harmonious developments (as students will be adept commendably in experiment with scientific techniques and will acquire proficiency in spontaneous and superfluous self-expression in specialised medium; exuberance of imaginative and creative fervour).
